# Litchfield Elementary School District Uniform System of Financial Records Compliance Questionnaire For Fiscal Year Ended June 30, 2021

### **Instructions**

Arizona Revised Statutes (A.R.S.) §15-271 requires the Arizona Auditor General to inform any school district failing to establish and maintain the requirements prescribed by the *Uniform System of Financial Records for Arizona School Districts* (USFR) that it has 90 days to correct the cited deficiencies. To help the Arizona Auditor General determine whether a district has attained an acceptable degree of compliance with the requirements of the USFR, the audit firm must complete this USFR Compliance Questionnaire (CQ).

A.R.S. §§15-213(F) and 15-914(G) require districts to have a systematic review of their purchasing practices and average daily membership (ADM), respectively, performed in conjunction with their annual or biennial financial audit to determine whether the district is in compliance with the applicable procurement and student attendance laws and rules of the State of Arizona. The Procurement and Student attendance reporting questions included in the CQ help districts meet these requirements.

The USFR prescribes the minimum internal control policies and procedures to be used by Arizona school districts for accounting, financial reporting, budgeting, attendance reporting, and various other compliance requirements. Audit firms must gain an understanding of the district's internal controls and obtain appropriate audit evidence to complete the CQ in accordance with the requirements prescribed below. The Arizona Auditor General may reject those CQs not meeting the minimum requirements.

- The audit firms must obtain sufficient, appropriate evidence annually for each question to provide evidence whether the district complied with the USFR. If the evidence was obtained and documented during the financial statement audit, that evidence may be referenced to answer related questions. Click the "tooltip" next to the CQ question to get more information about USFR requirements and review procedures that must be considered to address the question's objective.
- The CQ questions are considered "stand alone" and cited deficiencies should specifically address the question or review procedure in the comments. Auditors should not repeat a comment on multiple questions.
- The evidence may be obtained through test work, observation, examination, and client assertion. However, client assertion alone is not adequate evidence to support "Yes" answers on the CQ. The audit documentation must contain sufficient evidence to support the auditor's test work and related comments.
- The audit firm must determine the district reviewed documents and transactions and provided sufficient evidence of approval including signatures or initials and date of review.
- The population size should be considered in determining the number of items to test, and the items selected should be representative of the population. Also, additional instructions in the Credit cards, Procurement, and Student attendance reporting sections prescribe minimum sample sizes that must be used for specific questions. Population and samples sizes used for test work should be entered in the fields provided next to the related question.
- The number of items tested must be sufficient to determine whether a deficiency was the result of an isolated incident or a recurring problem. Therefore, testing 1 transaction, record, or item is not sufficient.
- The audit firm should expand the sample size if the audit firm cannot clearly determine whether the district complied with the USFR on that question.
- For questions related to the establishment of policies and procedures, the audit firm must gain an understanding of the district's internal
  controls and perform sufficient test work to determine that the procedures were implemented, followed, and systematically
  communicated to employees.
- For governing board/management procedures question 6, the audit firm should confirm management's appropriate action to resolve all allegations of theft, fraud, or misuse of district monies or assets by either examining copies of the incident reports or communicating with the agency involved in investigating the allegations. The audit firm should also consider if the district's internal controls failed to prevent or detect the theft, fraud, or misuse and include a deficiency in the USFR compliance area where the control failed.
  - o If the audit firm determines that district management was aware of allegations but did not appropriately resolve them in a timely manner (e.g., no action was taken; actions were not documented; actions were delayed, inadequate, or inappropriate to the circumstances), the audit firm should answer the question "No." This includes instances where an external investigation is underway for allegations but district management did not request the investigation, was not fully cooperating with the investigators, or was not otherwise attempting to resolve the allegations.
  - If the audit firm determines that district management was not aware of any allegations (based on inquiry, review of governing board minutes, search of local media coverage, and results of audit test work), the question should be answered "N/A."
  - If the audit firm finds evidence of theft, fraud, or misuse of district assets but does not find evidence that district management was aware of the possible theft, fraud, or misuse, the audit firm should report the incident to the Arizona Auditor General and answer this question "N/A."
- A "Yes" answer indicates that the audit firm has determined that the district complied with the USFR on that question and a "No" answer indicates the district did not comply. However, the Arizona Auditor General makes the final determination of compliance with the USFR based on the evidence presented in the CQ, audit reports, the audit documentation, and any other sources of information available.
- The audit firm must adequately explain all "No" answers in the comment box below the question. Deficiencies must be described in sufficient detail to enable the Arizona Auditor General to determine the nature and significance of the deficiency for: (a) assessing compliance with the USFR, (b) appropriately describing the deficiency in a report, and (c) testing compliance during a status review. The description should include the number of items tested and the number of exceptions noted, or dollar amount of the error, and any other relevant information that would provide context for the deficiency.
- The audit firm must adequately explain all "N/A" answers in the comment box below the question, unless the reason for the N/A is obvious.
- Cash and revenues questions apply to all the district's cash and revenue, including food service, auxiliary operations, extracurricular
  activities fees tax credit, and student activities receipts and bank accounts. Comments for "No" answers to these questions should
  indicate the type of receipt or bank account to which the deficiency applies.
- The questions in the CQ do not address all requirements of the USFR. If the audit firm is aware of noncompliance with a requirement of the USFR that is not addressed in the CQ, including the School District Procurement Rules and the Arizona Department of Education's (ADE) membership and attendance guidelines, the audit firm should include the compliance findings in its reports issued in accordance with Governmental Auditing Standards and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), as applicable.

The audit firm must make the resulting audit documentation supporting the audit firm's answers on the CQ available on request for the Arizona Auditor General and the ADE's review. To facilitate this review, the audit firm should include in the audit documentation a copy of the CQ with references to the audit procedures performed for each question.

Once the audit firm has completed, reviewed, and signed the CQ, it must submit it electronically to the Arizona Auditor General by following the instructions at the end of the web-based CQ. Audit firms should print the file to PDF to create the CQ document to distribute to the district. As required by A.R.S. §15-914(D), the district must submit the completed CQ with the audit reporting package to the district's county school superintendent's office and ADE.

#### FY 2021 Addendum

We understand districts faced challenges in all aspects of operations to comply with the State's COVID-19 Executive Orders and reopen schools during fiscal year (FY) 2021. We know there may be instances of noncompliance with the Uniform System of Financial Records for Arizona School Districts (USFR) that occurred, and we will take that into consideration when we evaluate districts' FY 2021 USFR CQs. While the USFR and statutory requirements still applied, if a district modified its existing internal controls because critical tasks could not be accomplished following the district's typical business process, at a minimum, those modified processes and decisions made should have been documented. Audit firms should consider adding additional information for cited deficiencies to provide detail and context for us to consider as we review completed FY 2021 USFR CQs. If a district's previously established processes were not practical in the COVID-19 environment, here are some areas for audit firms to consider when performing audit test work:

- Payroll—As employees may have performed tasks remotely during the year, time sheets might not be available to support all payroll
  payments during the school closure, and auditors should consider other support the district maintained for the payment.
   Further, if a district's auditor identifies salary and benefits expenses coded to functions that did not align with the employee's duties
  during the school closures, the auditor should indicate that in the comments on the USFR CQ so that we can take that information into
  consideration when evaluating a district's compliance with the USFR for FY 2021.
- Governing board meetings and expenditure approvals—The Attorney General issued an Opinion, I20-002, regarding public meetings to
  comply with social distancing recommendations. Further, to comply with A.R.S. §15-321, districts may have already had procedures in
  place for governing board members to approve expenditure vouchers in between meetings using an electronic approval process, such as
  electronic signatures, or implemented similar procedures to comply with the State's social distancing recommendations and Executive
  Orders.
- Procurement—Districts should have continued to follow the procurement rules, as described in the Attorney General's issued Opinion I20-003 and Procurement Guidance during school closures.
- Student attendance—Auditors should verify that the district followed its ADE approved Distance Learning Plan for student attendance.
- Transportation—In FY 2021, ADE did not modify the transportation reporting requirements for miles and student riders. Auditors should verify the district's FY 2021 transportation reporting.
